## **STUDENT INTERNSHIP POLICY**

Summer Internship Policy (SIP), MCGCBM gives students the opportunity to apply their knowledge to significant problems in the public, private, or non-profit sectors and develop and enhance skills in areas of professional interest.

The internship – completed over the summer following the first year of coursework – helps students clarify their career direction, give perspective on the selection of second-year electives, and enables students to establish networks of great value in securing post-graduation employment.

### **SIP Objective**

The Summer Internship Program is meant to bridge the gap between the real-life business and academic institutions. It is a simulation of the business environment and enables students to experience the rigors of a business organization.

- provide students with opportunities to apply the concepts learnt in the class-room to real-life situations
- To sensitize students to the dynamics of a work place by assigning time-bound projects in a company
- To provide students a platform to network which will be useful to further their career prospects

All students are required to undergo the Summer Internship Program for Six weeks after the successful completion of the second semester.

The objective of the assessment of SIP is to provide the intern with feedback concerning both general and specific professional skills and competencies.

The feedback will be taken from the external guide (from the organization) and the internal guide.

The student is expected to make 3 copies of the final report and submit one copy to the organization, College and one copy for himself / herself.

The internal guide reserves the right to visit the organization and assess the performance of the intern by taking a formal feedback from the reporting manager.
